

————— Ferretti 780 —————

The harmony in the internal and external volumes creates the perfect ambience for all kinds of cruising. Comfort, poise and safety at sea are the hallmarks of a new-concept vessel with a pleasing aerodynamic design. A true style leader, this is a yacht for enjoying the sea to the full.

Evolution is the watchword behind the Ferretti Yachts design vision – and has been for over half a century. This constant quest is fuelled by the nautical expertise and inventive inspiration to make yachts that fulfil owners' every desire for comfort, style, seaworthiness and safety on the waves. The philosophy shines through in the flowing design of the sporty lines and the sophisticated, comfortable interiors, emblems of a truly timeless elegance.

A major new advance at the stern offers the amenity of a real beach club, courtesy of the new door-opening system that transforms the area into a delightful area to relax in at the water's edge. A roll bar can be fitted for satellite installations, along with an optional modular hard top with a central awning or glass canopy.

Like the rest of the Ferretti Yachts fleet, this new 78-footer is also available in a Tai He Ban version. It is a design philosophy that has won critical acclaim and aficionado affection around the world, including across the Asia Pacific.
