

———— Pershing 5X ————

The first of the “Generation X” creations. A bold coupé whose mark – a code used in the aeronautical world to refer to extreme performance and technological evolution – alludes to the unquenchable thirst to set sail for new horizons at great speed. Pershing 5X is the first page of a fabulous new chapter in the history of Pershing.

The design of the highly aerodynamic superstructure features the classic Pershing styling, such as the side wings protecting the cockpit, which can be separate or joined to the interior lounge with the innovative system to open and close the glass door and windows.

The design is completed with four hull windows per bulwark, each with elliptical portholes, thus making the Pershing 5X a true “fighter jet” on the water.

The Pershing 5X comes with twin engines for more controlled or extreme performance: either twin VOLVO IPS950 D11 with 725hp, with Z-drives and counter-rotating propellers (cruising speed, 30 knots; top speed, 36 knots) or, alternatively, twin CAT 12.9 engines, 1,000hp each, with Top System 75X surface drives for a cruising speed of 41 knots and a top speed of 45 knots.

It is prepared for Easy Dock, the innovative system that lets you operate it with a joystick.
