

————— Riva ISEO —————

Iseo. The origin of the Riva legend echoes in her name, but this sophisticated 27-foot runabout is more modern and contemporary than ever.

For while her lines and her design are as smooth and seductive as always, in emblematic Riva style, Iseo can also boast some of the very latest technology. The result is a marriage of tradition and innovation that can-not fail to beguile all who experience her.

The defining virtue of this marvellous creation is her remarkable versatility. Whether as your vessel of choice for excursions on the lake or the exclusive tender for your yacht, Iseo rises magnificently to any challenge. And she is so easy to transport, so you can enjoy her wherever and however you please – in great company and total comfort.

Ideal for yachting on lakes, it is also perfect as a high class tender thanks to its water jet propulsion which enables it to access areas with very shallow seabeds.

Iseo is the lake on which the history of Riva started way back in 1842, and whose waters lap the celebrated Sarnico yard. It was therefore natural that its name should be given to a runabout which encapsulates the values that have made Riva into a legend, namely craftsmanship, uniqueness, elegance and incredible attention to detail.

Iseo, however, is above all a portable jewel, absolutely made for having fun with family and friends since it can be taken everywhere (it is 8.24 m long and 2.5 m wide with 6 comfortable seats, and has its own very classy, bespoke Riva trolley).

Quiet, comfortable and fast, Iseo is also the first craft in its class to be equipped with infotainment and GPS charting systems based on the Apple iPad platform. Enthusiasts and fans of this innovative boat are constantly growing in number, as shown by its achievement of the best "Motor Boat" award in the 29 feet and under category at the "Croatian Boat of the Year Award 2015", organized by the industry magazine "Naucat".
